

# **HEAT-RESISTANT STAINLESS STEEL**

## **Who are we?**

Paul Meijering Stainless Steel is a family owned company and active as a stockholder for more than 40 years. Our 2500 tons of stock consists of pipes and components in Stainless Steel and Special Alloys, daily delivered to world-wide customers.

We are an independent trader, eager to help you solving your problems. What can we do for your organization?

We say yes or no!

## **Heat resistant alloys**

We stock/deliver a wide range of products in several heat resistant alloys, such as pipes, fittings, flanges, bars and products on demand. These alloys are applied in high temperature and corrosive environs like: furnaces, petro chemistry, on- and offshore & combustion systems.

**Paul Meijering BEATS THE HEAT!**
